Total credit hours required for degree: 120				119/121
* BIOL 321 (capstone) may be replaced with three semesters of BIOL 486 (research). The three-semester BIOL 486, Honor Investigation & Thesis, may be counted as the Biology Capstone Experience in place of BIOL 321, Total Science Experience. Two hours of BIOL 486 will be counted as part of the core requirements (replacing 321) and four hours may be used to satisfy upper division Biology electives.				
** At least 1 upper division lab course must be taken (386 or 486 can substitute)				
†Three additional credit hours of BIOL electives at the 300 level or above beyond degree requirements are required for licensure, as shown; BIOL 490 is recommended. Alternately, students may choose to take GEOL 101/102 or 103/104 instead of the additional 3 credits of biology.
